## WELCOME

Dr. Johnson called the meeting to order at 1:00 p.m. The committee was divided into six pre-assigned groups to begin the Comprehensive Needs Assessment process. All groups will look at the demographic data. The groups are:

- Group #1 - Student Achievement
- Group #2 - School Culture and Climate & School Context and Organization
- Group #3 - Staff Quality, Recruitment, and Retention
- Group #4 - Curriculum, Instruction, and Assessment
- Group #5 - Family and Community Involvement
- Group #6 - Technology

## Comprehensive Needs Assessment Process

Dr. Johnson reviewed the process for assessing and disaggregating data for the CNA planning. A PowerPoint presentation on the CNA Planning Session was shared to show the Why, What, and How.

- Why? – State and federal requirements to conduct as part of the planning and decision-making process because the district receives federal Title I funds.
- What? – Examine multiple sources of data to monitor and assess the impact of what we do and have done.
- How? – To use data to identify strengths, weaknesses and priorities for next year.
- 5 Step Process – Indicators listed on the NCLB document determine what to look at and what student performance has been and what it needs to be.
- Each group was provided a set of folders that contain the data and documentation needed for their group.
  - Each set of folders is a different color per group.
  - Folders contain a different set of documentation such as: District Improvement Plan; School Safety Assessment; PEIMS Student Data; Teacher, Student, and Parent Survey Data; Student Accountability; documentation specific for the group; etc.
- This process drives the Executive Summary, helping to set strengths, needs, and priorities which in turn drives the District Improvement Plan (DIP) and the Campus Improvement Plans (CIPs).
  - The list of probing questions are used to direct examination of data.
  - The goal is to look at the information and draw conclusions.
  - Principals will use the same process for their Campus Improvement Plan.

## Executive Summary

Dr. Volz explained the process for keeping, adding, revising, or deleting “Strengths”, “Needs”, and “Priorities” for the Executive Summary. Approximately thirty minutes were allowed for group work.

- We can’t meet a long list of priorities so take a few of the more urgent “Needs” to set as “Priorities”.
  - You can’t have a priority without first having it as a need.
  - If a need or priority has been accomplished, draw a line through it to be deleted.
  - List new needs and priorities if needed.
- A new list of LV Board of Trustees goals were addressed. Look to see which can be incorporated in the DIP.
- The final revision of the 2017-18 Executive Summary and District Improvement Plan will be presented to the La Vega ISD Board of Trustees in April.

**Share Out:**

- Executive Summary – Recommended changes were discussed and shared.
  - There were some deletions as well as additions of some new “Strengths”, “Needs”, and “Priorities”.

**ADJOURNMENT**

The meeting ended at 2:49 pm. The next meeting is scheduled for March 14, 2017.
